Bedienung

Optional: Bedienung mit Bedienstab

DEMONTAGE

Das Modell DF 20 ist von unten sowie von oben zu betätigen und ermöglicht so einen umfassenden Sonnen- und Hitzeschutz. An den Seiten befinden sich Abdeckschienen, welche dabei helfen, das seitliche Licht zusätzlich abzuhalten. Die Montage erweist sich als denkbar einfach und hat als Ergebnis ein stabiles Plissee, dass sich bei Bedarf auch ebenso mühelos wieder abnehmen lässt.

Weitere Dachfenstermodelle finden Sie in unserem [Livoneo.de-Onlineshop](https://www.livoneo.de).

Bei Rückfragen zur Montage der Dachfensterplissee stehen wir gern unter mail@livoneo.de zur Verfügung. Bitte geben Sie bei allen Anfragen Ihre Bestellnummer und Telefonnummer mit an.
