KINDERSICHERHEIT

Klassisch und zuverlässig sind die Attribute der freihängenden Plissees F1, F3 und F5. Diese Anlagen werden im unteren Bereich nicht befestigt, können aber mit einer Pendelsicherung versehen werden. Je nach Modell sind diese Faltstores mit einem oder mehreren Stoffen ausgestattet. Neben den Stoffen sind auch die Befestigungsmöglichkeiten zahlreich. Je nach Bedarf und Wunsch können diese Modelle direkt im Falz, am Fensterrahmen oder in der Fensternische angebracht werden.

Bei Rückfragen zur Montage steht Ihnen unser Team gern unter mail@livoneo.de zur Verfügung.
