Winkelmontage

Diese feststehenden Plisseemodelle für dreieckige Fenster können nicht geöffnet und nicht bedient werden. Die Montage ist jedoch ganz einfach. Dazu werden Halteclips entweder direkt in der Glasleiste oder mit Winkeln am Fensterflügel montiert. Das Plissee wird anschließend auf die Halteclips eingehängt.

Bei Rückfragen zur Montage stehen wir gern unter mail@livoneo.de zur Verfügung. Bitte geben Sie bei Rückfragen Ihre Bestellnummer und Telefonnummer an, so können wir am schnellsten auf Ihre Anfrage reagieren.
